

## Design Verification Manager

Reports to: VP Engineering

### **Role and Responsibilities:**

Portal Instruments seeks a curious, detail-oriented leader to join the product development engineering team in leading the design verification effort as both a manager and individual contributor. Responsibilities include:

- Outline and refine the design verification plan for Portal's needle-free drug delivery system across multiple projects.
- Coordinate with internal and external stakeholders to execute protocols, test activities, and reports.
- Develop and execute testing.

### **Required Skills and Experience:**

- The ideal candidate will have a strong technical background and experience with design verification activities.
- Experience with system testing and documentation for medical devices is a plus.
- Ability to track complex and interdependent activities.
- Portal strives to build a team with a diverse skillsets. Our product is a highly integrated electromechanical system. Our team has a diverse set of skill sets, and many of us work across multiple disciplines; If any part of the description above sounds like something you've worked on, we'd love to talk to you.

### **Qualifications:**

- B.S. or equivalent technical experience.
- 3+ years of technical work related to verification testing and/or design.
- Strong written and verbal communication skills

## **About Portal Instruments**

Portal Instruments is a Series B funded medical device company focused on advanced drug delivery and backed by powerful strategic partners and venture investors. We are developing and commercializing a highly innovative needle-free drug delivery platform technology to transform the administration of medicines and improve the patient experience for chronic diseases. Portal's needle-free delivery technology enables the injection of high viscosity biologic drugs without the pain, anxiety and troublesome handling of needles. Our needle-free breakthrough technology is precise, reliable and comfortable to use. Come join us on this exciting journey of making chronic patient care and comfort a priority.
